Additional information kitesurf rentals

We charge an extra €10,- per day insurance for the kite and €50,- for 1 week. This insurance covers repairable damages. It does not cover loss, destruction or wave riding.

In order to rent with us you need to be able to ride upwind.

The rented gear is only for the kiter itself and not for teaching purposes.

When you're not using the kite we kindly ask you to deflate the front tube and leave it in the shade or at the school.
